## Introduction

Games Warehouse proudly presents SWP Update V10! New content includes:

### Birdz

Catch some fast and furious bird matching action in this classic Bejewelled styled puzzle game. Click on 2 adjacent birdz to swap them, and make sets of three or higher to score! Utilise the crosshair symbol to scare the surrounding birdz away. Tons of feathered fun for everyone!

<b>Price per Play:</b>	50p
<b>Maximum Prize:</b>	£5
<b>Payout Percentage:</b>	35%

### Roulette (Cat 'C')

Back by popular demand, Cat 'C' roulette.

<b>Price per Play:</b>	30p / 50p / £1
<b>Maximum Prize:</b>	£100
<b>Payout Percentage:</b>	80% / 84% / 90%

## Robin Hood

Robin Hood desperately needs a merry person to help him on his quest to find some arrows for the big Archery Competition.

Travel round the board and rack up enough points to qualify for the archery end game. Points are awarded each time you answer a question correctly. Look out for the Skill Game where you can score big points.

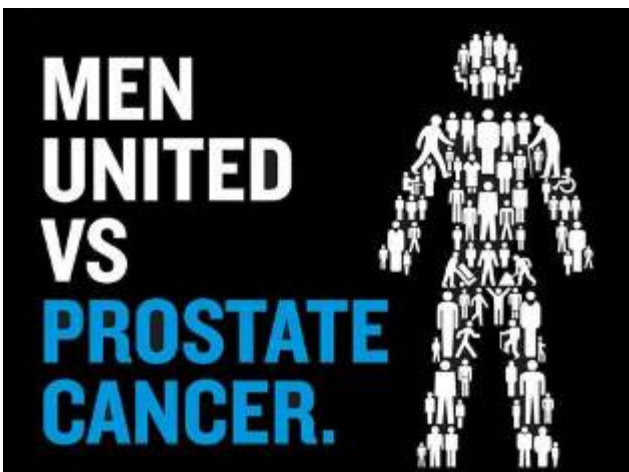

There is also a cash reward if you manage to collect all 3 pictures of your friends.

<b>Price per Play:</b>	50p
<b>Maximum Prize:</b>	£10
<b>Payout Percentage:</b>	34%

## Paragon & Men United

In collaboration with the Partnership Team at Prostate Cancer UK ([www.prostatecanceruk.org](http://www.prostatecanceruk.org)). We're promoting the charity Men United on all our machines in the form of adverts, this comes at no extra cost and can be easily disabled via Landlord mode if so wished.

## Menu Enhancements

In every update we like to tweak the menu to keep it fresh, this update is no exception. To provide a greater emphasis on the new content the first page will contain the main game icon.

## V10.0 is available by DOWNLOAD

- Visit [www.gwhl.co.uk](http://www.gwhl.co.uk) and download software onto **DVD** or **USB Pens** for *transfer*

## Installation Instructions

- Your SWP terminal **must** have **v9.0.00** (or later) software already installed
- To begin, open the top and bottom doors and press **Test Switch** to enter **Maintenance Mode**
- Insert your **DVD** or loaded **USB Pen** into **Tower** and press **Load Update**
- After accepting the 'EULA' installation will proceed
- Wait for the **v10.0** software to install. This will take 15-20 minutes
- When this is complete the SWP terminal will *automatically* reboot
- **WARNING:** Do **NOT** turn the machine off during this process
- Remove **DVD** or **USB Pen** from **Tower** and close and lock both doors to complete installation
