## Introduction

The **v4.1** software release for Evolution/Infiniti (Cat C) introduces **five new** £100 Jackpot games (***Heads Up Texas Hold'em Poker, Roulette, Blackjack, Super X Bingo*** and ***Lucky Gems***). Also included are updated £100 Jackpot versions of earlier Games Warehouse favourites, ***Pirates Treasure*** and ***Cops 'n' Robbers***.

## Activating the Triennial Jackpot Update

**(Not to be completed until after 00:01am on WEDNESDAY 15<sup>th</sup> JANUARY 2014)**

Once the **v4.1** software is installed, open the door, press the **Test Switch**, enter **Smart Settings** and click the **Enable Triennial** button. You must then enter the following code: **tr33-fu-80** and this will allow you to alter the Cat C Jackpots from £70 to £100. Once v4.1 is activated on a terminal, it is possible to return these seven games to £70 Jackpot but it is **not** possible to switch **back** to v4.0 and the original Game Library without a hard drive change. **Please note, upgrading to £100 will clear all current and previous machine statistics and reboot the terminal.**

- Insert your **CD/DVD** or loaded **USB Pen** into **Tower** and press **Load Update**
- After accepting the 'EULA' installation will proceed
- Wait for the **v4.1** software to install. This will take 15-20 minutes
- When this is complete the Infiniti/Evolution will *automatically* reboot
- **WARNING:** Do **NOT** turn the machine off during this process
- Remove **CD/DVD** or **USB Pen** from **Tower** and close and lock both doors to complete installation

## Heads Up Texas Hold'em Poker

**STAKE: Maximum £1.00**

**JACKPOT: £100.00**

**PAYOUT PERCENTAGE: 80%**

*Texas Hold'em* has long been the most popular variation of poker. A hand of Hold'em consists of up to four betting rounds. After placing a 'blind' first bet, both players are dealt two cards. The virtual player's cards are face down. Three 'community' cards are then placed face-up in the centre of the table. This is known as the 'Flop' and both players use these with their own two cards to start to build their hand. Two further 'community' cards are placed in the centre of the table, one further betting round at a time. These are the 'Turn' and the 'River' cards.

The player must then make the best five-card hand out of these five 'community' cards and the two of his/her own and gamble on beating the virtual opponent. All hands are compared using the hand ranking system that is standard across all variants of poker. In our *Heads Up Texas Hold'em Poker* the player must defeat eight opponents to win the Jackpot Prize!

## Blackjack

**STAKE: Maximum £1.00**

**JACKPOT: £100.00**

**PAYOUT PERCENTAGE: 89%**

The object of *Blackjack* is to accumulate a hand of cards with a 'face value' that is as close to 21 without 'busting' (going over 21) and better the hand held by the Dealer to win each hand. All of the 'face' cards (i.e. Jacks, Queens and Kings) are worth 10 and Aces are worth either one or 11 depending on which the player prefers. All other cards are represented by the numerical value.

# Roulette

**STAKE: Maximum £1.00**

**JACKPOT: £100.00**

**PAYOUT PERCENTAGE: 87.5%**

**Roulette** is the most famous of all casino games and is also the most popular and successful of all electronic gaming terminal games. In the Evolution/Infiniti version, there is no cumbersome 'pre-entry' game and the player simply proceeds directly to the action. "Place Your Bets" on the chosen numbers and the spin of the wheel will determine the winners.
