Introduction

The v9.0 software release for SWP introduces 2 brand new single burn games:

#Words is an exciting new word game from Games Warehouse. Players must find as many words as possible within 2 minutes to work their way up the win plan and achieve the cash prizes. Words can be selected by either pressing each tile in turn or swiping through them. Each tile is worth a set number of points, so the longer the word the bigger the score.

Double and Triple word scores are available to boost your score. Players can use bonuses such as Hint, Freeze and Re-Seed to help boost their score. Extra bonuses can be purchased for an additional 10p.

Price per Play:	50p
Maximum Prize:	£10
Payout Percentage:	35%

Trivia Tube is a re-imagination of the classic Eliminator game. Where you play through 8 exciting trivia filled rounds, selecting the TV's with the correct answers. Using your bonuses to help you switch off TV's with the incorrect answer or to reveal the correct answer.

Price per Play: 50p
Maximum Prize: £10
Payout Percentage: 35%

V9.0 is available by DOWNLOAD

- Visit www.gwhl.co.uk and download software onto **DVD** or **USB Pens** for *transfer*
- If you wish us to supply pre-loaded **USB Pens** to you, these are available at **£9.99 each**

V9.0 is also available on DVD - ON REQUEST

- Call GW Technical Support on: **01332 228480** or email on: support@gwhl.co.uk

Installation Instructions

- Your SWP terminal **must** have **v8.0.00** (or later) software already installed
- To begin, open the top and bottom doors and press **Test Switch** to enter **Maintenance Mode**
- Insert your **DVD** or loaded **USB Pen** into **Tower** and press **Load Update**
- After accepting the 'EULA' installation will proceed
- Wait for the **v9.0** software to install. This will take 15-20 minutes
- When this is complete the SWP terminal will *automatically* reboot
- **WARNING:** Do **NOT** turn the machine off during this process
- Remove **DVD** or **USB Pen** from **Tower** and close and lock both doors to complete installation
