## Introduction

The v9.3 software update for SWP adds a new game 'Hangman Quiz Saloon'.

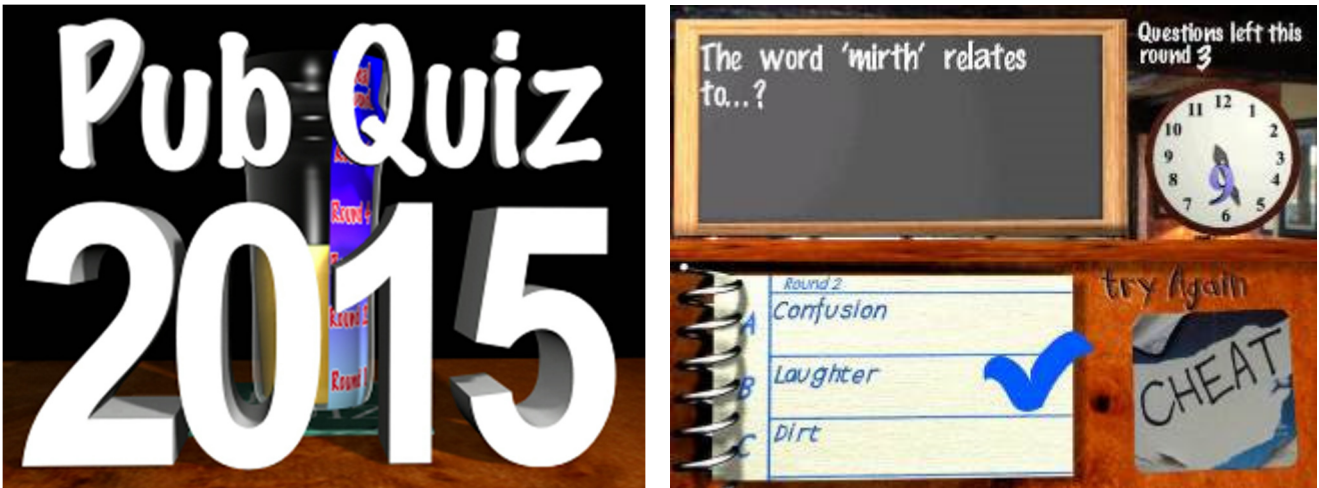

Welcome to Hangman Saloon! Firstly, choose a clue from the piano screen and then carefully select a letter that belongs to the blank phrase. Before receiving a correctly chosen letter you'll have to answer a quiz question. The completion of the phrase rewards you with points which will move you along the progress bar closer to the cash prizes. However, if too many incorrect letters are chosen, or you answer a question incorrectly, it's game over!

Make sure you check out the Dead or Alive and Shoot Out bonus rounds where you can win Try Again, Pass lifelines and extra points.

<b>Price per Play:</b>	50p
<b>Maximum Prize:</b>	£10
<b>Payout Percentage:</b>	31%

'Pub Quiz' has been updated to include a new and refreshed question bank.

### V9.3 is available by DOWNLOAD

- Visit [www.gwhl.co.uk](http://www.gwhl.co.uk) and download software onto **CD** or **USB Pens** for *transfer*
- If you wish us to supply pre-loaded **USB Pens** to you, these are available at **£9.99 each**

### V9.3 is also available on CD - ON REQUEST

- Call GW Technical Support on: **01332 228480** or email on: [support@gwhl.co.uk](mailto:support@gwhl.co.uk)

### Installation Instructions

- Your SWP terminal **must** have **v9.0.00** (or later) software already installed
- To begin, open the top and bottom doors and press **Test Switch** to enter **Maintenance Mode**
- Insert your **CD** or loaded **USB Pen** into **Tower** and press **Load Update**
- After accepting the 'EULA' installation will proceed
- Wait for the **v9.0** software to install. This will take 15-20 minutes
- When this is complete the SWP terminal will *automatically* reboot
- **WARNING:** Do **NOT** turn the machine off during this process
- Remove **CD** or **USB Pen** from **Tower** and close and lock both doors to complete installation
